PROJECTS

Weather App

Weather app -

- Developed a weather forecasting app that fetches real-time weather data using OpenWeather API
- Implemented a responsive UI with Bootstrap and JavaScript to display weather conditions dynamically
- Added geolocation support for automatic city detection

Movie Search App

Movie Search App -

- Developed a movie search application that fetches real-time movie data from TMDB API
- Features: Search functionality, movie details, responsive UI, and favorites list using Local Storage
- Increased app performance by optimizing API calls and state management

Typing Speed Test App

Typing Speed Test App -

- Created a real-time typing speed test with accuracy tracking
- Integrated a countdown timer and score calculation
- Enhanced UI with dynamic word highlighting
